

Patient Resources | ClinicalTrials.gov

The sites and pages listed here provide additional information about participating in clinical studies and FDA regulation of drugs. There is also a list of specific conditions for which clinical trials may be conducted.

Important reminder: Before participating in a clinical study, talk to your health care provider to learn about the risks and benefits. [The ClinicalTrials.gov disclaimer](https://clinicaltrials.gov/about-site/disclaimer)(https://clinicaltrials.gov/about-site/disclaimer) has more details for your consideration.

General information about research participation

The [Office for Human Research Protections \(OHRP\)](https://www.hhs.gov/ohrp/index.html)(https://www.hhs.gov/ohrp/index.html) helps protect the rights, welfare, and wellbeing of research volunteers. Information about participating in research studies can be found here:

- [About Research Participation](https://www.hhs.gov/ohrp/education-and-outreach/about-research-participation/index.html)(https://www.hhs.gov/ohrp/education-and-outreach/about-research-participation/index.html) Includes sections on what questions to ask, regulations that protect research volunteers, and more.
- [Human Research Volunteer Informational Videos](https://www.hhs.gov/ohrp/education-and-outreach/about-research-participation/informational-videos/index.html)(https://www.hhs.gov/ohrp/education-and-outreach/about-research-participation/informational-videos/index.html) Topics include clinical research basics, other types of human research, and protecting human research volunteers.

The [National Institutes of Health \(NIH\)](https://www.nih.gov/)(https://www.nih.gov/) is the nation's medical research agency, which [ClinicalTrials.gov](http://clinicaltrials.gov/)(http://clinicaltrials.gov/) is a part of.

- [NIH Clinical Research Trials and You](https://www.nih.gov/health-information/nih-clinical-research-trials-you)(https://www.nih.gov/health-information/nih-clinical-research-trials-you) (also [available in Spanish](https://salud.nih.gov/investigacion-clinica)(https://salud.nih.gov/investigacion-clinica)): Contains information about how to find clinical trials, answers to frequently asked questions, personal stories, educational resources, and more.
- [Medline Plus Clinical Trials](https://medlineplus.gov/clinicaltrials.html)(https://medlineplus.gov/clinicaltrials.html): A helpful collection of information provided by Medline Plus, a service of the National Library of Medicine (NLM).
- [The NIH Clinical Center](https://www.cc.nih.gov/)(https://www.cc.nih.gov/): Includes information about participating in clinical studies that take place at this specialized hospital located on the campus of the National Institutes of Health in Maryland.

Information about FDA-regulated medical products

The [Food and Drug Administration \(FDA\)](https://www.fda.gov/)(https://www.fda.gov/) ensures the safety and effectiveness of drugs, biological, and device products in the U.S. Useful resources on their site include:

- [The Drug Development Process](https://www.fda.gov/patients/learn-about-drug-and-device-approvals/drug-development-process)(https://www.fda.gov/patients/learn-about-drug-and-device-approvals/drug-development-process)

- [Step 3: Clinical Research](https://www.fda.gov/patients/drug-development-process/step-3-clinical-research)(https://www.fda.gov/patients/drug-development-process/step-3-clinical-research)
- [The Device Development Process](https://www.fda.gov/patients/learn-about-drug-and-device-approvals/device-development-process)(https://www.fda.gov/patients/learn-about-drug-and-device-approvals/device-development-process)
 - [Step 3: Pathway to Approval](https://www.fda.gov/patients/device-development-process/step-3-pathway-approval)(https://www.fda.gov/patients/device-development-process/step-3-pathway-approval)
- [Clinical Trials: What Patients Need to Know](https://www.fda.gov/patients/clinical-trials-what-patients-need-know)(https://www.fda.gov/patients/clinical-trials-what-patients-need-know)
 - [What Patients Need to Know about Institutional Review Boards](https://www.fda.gov/patients/clinical-trials-what-patients-need-know/what-patients-need-know-about-institutional-review-boards).(https://www.fda.gov/patients/clinical-trials-what-patients-need-know/what-patients-need-know-about-institutional-review-boards) Learn about the purpose of institutional review boards (IRBs) and what they consider when reviewing a proposed study.
 - [Informed Consent for Clinical Trials](https://www.fda.gov/patients/clinical-trials-what-patients-need-know/informed-consent-clinical-trials).(https://www.fda.gov/patients/clinical-trials-what-patients-need-know/informed-consent-clinical-trials) Key info for those thinking about participating in a clinical trial of an FDA-regulated product.

Stem Cell Trials and Regenerative Medicine

Stem cell and other regenerative medicine products must have FDA approval or licensure to be sold. Before approval, these products require FDA oversight in a clinical trial. The FDA is concerned that some patients seeking such products may suffer potential harm from remedies that are illegal or being marketed for unapproved uses.

Read more about the FDA's concerns and advice in:

- [Important Patient and Consumer Information About Regenerative Medicine Therapies](https://www.fda.gov/vaccines-blood-biologics/consumers-biologics/important-patient-and-consumer-information-about-regenerative-medicine-therapies)(https://www.fda.gov/vaccines-blood-biologics/consumers-biologics/important-patient-and-consumer-information-about-regenerative-medicine-therapies)

Clinical trials for general or specific conditions

Many of the institutes within the NIH provide a list of clinical trials for their specific areas of research. This section provides links to those institute pages or related information.

(Please note: All studies are also listed here at [ClinicalTrials.gov](http://clinicaltrials.gov/).(http://clinicaltrials.gov/) Some of these institute pages provide their own summaries of studies, while others simply link back to lists on this site.)

- [Alcohol Abuse/Alcoholism](https://www.niaaa.nih.gov/join-study)(https://www.niaaa.nih.gov/join-study) – Selected studies conducted by the National Institute on Alcohol Abuse and Alcoholism.
- [Alzheimer's Disease](https://www.nia.nih.gov/alzheimers/clinical-trials/)(https://www.nia.nih.gov/alzheimers/clinical-trials/) – Find clinical trials through Alzheimer's.gov, which is maintained by the National Institute on Aging (NIA).
- [Arthritis and Musculoskeletal](https://www.niams.nih.gov/labs/clinical-trials#tab-studies)(https://www.niams.nih.gov/labs/clinical-trials#tab-studies) – See current studies being conducted by the National Institute of Arthritis and Musculoskeletal and Skin Diseases (NIAMS).
- [Blood/Heart](https://www.nhlbi.nih.gov/research/clinical-trials)(https://www.nhlbi.nih.gov/research/clinical-trials) – Studies led or sponsored by the National Heart, Lung, and Blood Institute (NHLBI).
 - The [National Institute of Diabetes and Digestive and Kidney Diseases \(NIDDK\)](https://www.niddk.nih.gov/health-information/clinical-trials)(https://www.niddk.nih.gov/health-information/clinical-trials) also researches blood diseases.

- [Cancer](https://www.cancer.gov/about-cancer/treatment/clinical-trials)(https://www.cancer.gov/about-cancer/treatment/clinical-trials) – Information on cancer studies, notable clinical studies and results by cancer type are available on the National Cancer Institute (NCI) site's clinical trials page for patients and caregivers
- [Complementary/Integrative Health](https://www.nccih.nih.gov/research/clinicaltrials)(https://www.nccih.nih.gov/research/clinicaltrials) – Find trials that study the effects of non-mainstream (sometimes called “alternative”) treatment methods being conducted by the National Center for Complementary and Integrative Health (NCCIH).
- Covid-19 – The following resources are available:
 - [Searching COVID to Enhance Recovery](https://recovercovid.org/)(https://recovercovid.org/) – This initiative from the NIH is conducting studies to understand why some people do not fully recover and develop Long COVID symptoms.
 - [Volunteer for COVID-19 Clinical Trials](https://www.niaid.nih.gov/clinical-trials/covid-19-clinical-trials)(https://www.niaid.nih.gov/clinical-trials/covid-19-clinical-trials) – The National Institute of Allergy and Infectious Diseases (NIAID) is conducting and supporting clinical trials evaluating therapies and vaccines.
- [Diabetes](https://www.niddk.nih.gov/health-information/clinical-trials)(https://www.niddk.nih.gov/health-information/clinical-trials) – Learn about and find studies conducted by the National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK).
- [Digestive](https://www.niddk.nih.gov/health-information/clinical-trials)(https://www.niddk.nih.gov/health-information/clinical-trials) – NIDDK also conducts research on digestive diseases.
- [Endocrine](https://www.niddk.nih.gov/health-information/clinical-trials)(https://www.niddk.nih.gov/health-information/clinical-trials) – Another research area of the NIDDK.
- [Environmental Health](https://www.niehs.nih.gov/research/atniehs/labs/crb/studies)(https://www.niehs.nih.gov/research/atniehs/labs/crb/studies) – The National Institute of Environmental Health Sciences supports and does studies to learn how exposure to chemicals or other substances can influence various diseases.
- Genetic and Rare Diseases – Here are some available resources:
 - [Current Clinical Studies](https://www.genome.gov/Clinical-Research/Current-NHGRI-Clinical-Studies)(https://www.genome.gov/Clinical-Research/Current-NHGRI-Clinical-Studies) – A look at the studies being conducted by the National Human Genome Research Institute (NHGRI).
 - [Human Subjects Research](https://www.genome.gov/about-genomics/policy-issues/Human-Subjects-Research-in-Genomics) (https://www.genome.gov/about-genomics/policy-issues/Human-Subjects-Research-in-Genomics) – If you're interested in participating in genomic research, there are unique and important things to consider. This page on the NHGRI site provides details.
 - [Genetic and Rare Disease Information Center \(GARD\)](https://rarediseases.info.nih.gov/diseases)(https://rarediseases.info.nih.gov/diseases) – Search or browse this website to learn more about rare diseases, symptoms, and support resources.
- HIV/AIDS – The following sites or pages may be useful:
 - [HIV.gov](https://clinicalinfo.hiv.gov/en)(https://clinicalinfo.hiv.gov/en) – Provides a drug database, treatment guidelines, and a glossary of HIV/AIDS-related terms and phrases.
 - [NIH.gov](https://hivinfo.nih.gov/)(https://hivinfo.nih.gov/) – Fact sheets, infographics and more, about a wide range of HIV-related topics.
- [Kidney Disease](https://www.niddk.nih.gov/health-information/clinical-trials)(https://www.niddk.nih.gov/health-information/clinical-trials) – Learn about and find studies conducted by the National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK).
- [Lung Diseases](https://www.nhlbi.nih.gov/research/clinical-trials/)(https://www.nhlbi.nih.gov/research/clinical-trials/) – Studies led or sponsored by the National Heart, Lung, and Blood Institute (NHLBI).
- [Mental Health](https://www.nimh.nih.gov/research/research-conducted-at-nimh/join-a-study)(https://www.nimh.nih.gov/research/research-conducted-at-nimh/join-a-study) - Information on adult and pediatric studies for specific mental health conditions conducted by the National Institute of Mental Health (NIMH).
- [Skin Conditions](https://www.niams.nih.gov/labs/clinical-trials#tab-studies)(https://www.niams.nih.gov/labs/clinical-trials#tab-studies) – See current

studies being conducted by the National Institute of Arthritis and Musculoskeletal and Skin Diseases (NIAMS).

- [Stroke and Other Brain Disorders](https://www.ninds.nih.gov/health-information/clinical-trials/find-ninds-clinical-trials)(https://www.ninds.nih.gov/health-information/clinical-trials/find-ninds-clinical-trials) – Trials being conducted by the National Institute of Neurological Disorders and Stroke (NINDS).
- [Urologic](https://www.niddk.nih.gov/health-information/clinical-trials)(https://www.niddk.nih.gov/health-information/clinical-trials) – Learn about and find studies conducted by the National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK).
- [Vision](https://www.nei.nih.gov/research/clinical-trials)(https://www.nei.nih.gov/research/clinical-trials) – The National Eye Institute (NEI)'s page devoted to eye-related clinical studies and related information.
